

# Britannica Academic

Fast and easy access to trusted information with one of the world's most trusted reference databases.

Britannica Academic provides expert-reviewed information with balanced, global perspectives and insights that students won't find anywhere else.

Content experts from the past and present include:

**110**  
Nobel Prize  
Winners

**100+**  
Heads of States  
& World Activists

**50**  
Notable Sports  
Figures

**5**  
United States  
Presidents

# Britannica Academic is helping support learning institutions by putting a database of the very best and accurate sources at your fingertips

Expand your reach by providing both on-site and remote access to Britannica's complete database to students.

Enrich your current collection with tools and resources that empower self-led research and learning at the highest level.

Become an immediate expert ready to serve your students with our easy-to-implement technology, account support, and enhanced training.

Provide a search platform for your students that allows them to easily uncover abundant, trusted, vetted, and cited content on every subject within seconds.

Provide resources with confidence, knowing that Britannica Academic is actively working against the proliferation of false information by providing direct access to content that is fact-checked through a rigorous editorial process.
